Subject Index to Volume 39

A

A surgeon looks at the changing times, 657

Abdominal aortic dissection following trauma, 177

Abscess
- intra-abdominal, 319
- perinephric, 366

Aerophagia, 619

Aganglionosis, congenital, histochemistry in the diagnosis and investigation of, 602

Amputation, physiologic, a device which facilitates, 637

Anastomosi(e)s
- colon, effects of drains on, 597
- end-to-end, of the common duct using Nakayama ring, 170
- vascular, in pancreatoduodenal transplantation in dogs, 244

Aneurysm
- abdominal aortic, ruptured, catheter for hemostatic control, 271
- internal carotid, 118
- of anomalous right subclavian artery, 187
- of an anomalous right hepatic artery, rupture of, causing hemobilia, 229
- of the brachial artery, thrombosis and, from brachial arteriography, 115
- of the brachial artery with complete thrombosis caused by a crutch, 389

Angiography, use of, to diagnose subcapsular hematoma of the spleen, 587

Antibody, antilymphocyte, specific, for use in renal transplantation, 429

Aorta, abdominal, coarctation, associated with renal artery stenosis, 212

Aortocoronary vein bypass grafting, 156

Appendix, Crohn's disease of, 349

Arrhythmias, cardiac, an early sign of sepsis, 380

Arterial disease, peripheral, diagnostic methods, 543

Arterial reconstruction, following carotid sinus endarterectomy, 207

Arteriography, 543
- brachial, thrombosis and aneurysm of the, from, 115
- selective, and infusion in diagnosis and treatment of acute gastrointestinal bleeding, 448

Arteriosclerosis, symptomatic peripheral, of patients under 40, 224

Artery(ies)
- brachial, aneurysm of the, with thrombosis caused by a crutch, 389
  - thrombosis and aneurysm of the, from brachial arteriography, 115
- carotid, internal, aneurysm of, 118
  - pseudoaneurysms of, 257
  - significance of ulcerated lesions of the, 681
- coronary, surgical therapy, present status of, 549
- hepatic, and portal vein, traumatic intrahepatic fistula of, 164
  - anomalous right, rupture of an aneurysm of, 229
- mammary and pulmonary, fistulous communication between, 12
- popliteal trifurcation, lateral approach to, 453
- pulmonary, bedside measurement of pressure in surgical patients, 398
- renal, stenosis, 212, 642
- subclavian, anomalous right, aneurysm of, 187

Atelectasis, basal, simulating pneumoperitoneum, 60

B

Bacteroides, postoperative infections from, 459

Bed, air-fluidized, bacterial effect on, 253

Bile acid metabolism, in distal ileal resection, 305

Bile duct
- anomaly, constant, encountered during biliary operation, 438
- common, anastomosis of the, 170

Biliary tree, fibrosis and stenosis of, 191

Biopsies, breast, a review of 1,063, 372

Bleeding
- from acute "stress" ulcers of the stomach, 562
- gastrointestinal, acute, arteriography and infusion in diagnosis and treatment of, 448
  - a new approach to the problem of, 48
  - caused by hemobilia, 229
  - massive, precipitated by large leiomyoma of the uterus, 528
- of the duodenum, in children, 420

Blood, auto transfusion of, 652

Brain tumors, in families with breast cancer, 199

- renal, stenosis, 212, 642
- subclavian, anomalous right, aneurysm of, 187

Atelectasis, basal, simulating pneumoperitoneum, 60

B

Bacteroides, postoperative infections from, 459

Bed, air-fluidized, bacterial effect on, 253

Bile acid metabolism, in distal ileal resection, 305

Bile duct
- anomaly, constant, encountered during biliary operation, 438
- common, anastomosis of the, 170

Biliary tree, fibrosis and stenosis of, 191

Biopsies, breast, a review of 1,063, 372

Bleeding
- from acute "stress" ulcers of the stomach, 562
- gastrointestinal, acute, arteriography and infusion in diagnosis and treatment of, 448
  - a new approach to the problem of, 48
  - caused by hemobilia, 229
  - massive, precipitated by large leiomyoma of the uterus, 528
- of the duodenum, in children, 420

Blood, auto transfusion of, 652

Brain tumors, in families with breast cancer, 199

Breast
biopsies, a review of 1,063, 372
cancer, families with, association of sarcoma, leukemia and brain tumors in, 199
operation and results of a screening program for, 663
carcinoma of the, associated with pregnancy and lactation, 101
Burn wound therapy, 82

C

Cancer(s)
breast, families with, association of sarcoma, leukemia and brain tumors in, 199
operation and results of a screening program for, 663
lung, thoracotomy for, 410
pelvic, surgical palliation of, 108
periampullary, current concepts in management of,
Carcinoma
breast, associated with pregnancy and lactation, 101
bronchogenic, selection of patients for surgery, 1
colonic, in an incarcerated ventral hernia, 331
liposarcoma of anterior chest wall, 63
of hepatic ducts, 445
of hepatic flexure, impaction of ingested undissolved tablets proximal to, 532
of pilonidal sinus, 151
of prostate presenting as obstructive carcinoma of the rectum, 582
of rectum, obstructive, carcinoma of the prostate presenting as, 582
of transverse colon, 15
total gastrectomy for, 279
Carotid artery, pseudoaneurysms of, 257
Carotid body
chemodectoma of, 333
tumors, 501
Carotid sinus endarterectomy, 207
Catheter
alimentation, central venous, method of placement in small infants, 323
balloon, Foley, use for removal of saphenous vein, 219
guided, for control of ruptured abdominated aortic aneurysm, 271
polyethylene, embolism resulting from, 57
Swan-Ganz, right heart, 398
Catheterization
complicated by central venous thrombosis, 162
supraclavicular, 75
Cecal necrosis and perforation with systemic chemotherapy, 129
Cecum, volvulus of, 325
Chemodectoma with distant metastasis, 333
Chemotherapy, systemic, cecal necrosis and perforation with, 129
Cholangiography in "institutional jaundice," 673
Cholangitis, primary sclerosing, 191
Cholecystitis
post-traumatic, 275
use of duodenal drainage in diagnosis of, 568
Cholelithiasis, liver injury in, 234
Cirrhosis of the liver, duodenal varices with, 518
Coarctation of the abdominal aorta, 212
Colitis, phlegmonous, 286
Colon
anastomoses, effects of drains on, 597
carcinoma in an incarcerated ventral hernia, 331
diverticulitis of the, perforated, surgical management of, 142
transverse, carcinoma of the, 15
Crohn's disease of the appendix, 349
Crutch, causing aneurysm of the brachial artery with thrombosis, 389
Cryptorchidism, herniography in, 621
Cysts, pancreatic, individualization in treatment of, 555

D

Diarrhea, in distal ileal resection, 305
Digestive juices, corrosive effects of, on legs of living frogs, 571
Diverticular disease, acquired, perforation in, of the terminal ileum, 514
Diverticulitis
acute solitary cecal, 700
of the colon, perforated, surgical management of, 142
Drains
effects of, on colon anastomoses, 597
method for preventing inadvertent dislodging of, 186
Drug abuse syndrome, surgical patients in, 88
Duodenal
drainage, use of, in diagnosis of cholecystitis, 568
leiomyosarcoma, 290
obstruction caused by gallstones, 688
ulcer as a cause of duodenocolic fistula, 281
bleeding, in elderly patients, 174
varices with cirrhosis of the liver, 518
Duodenum, intramural hematoma of the, in children, 402

E

Editorial, 369
Embolism, resulting from polyethylene catheter, 57
Empyema, postpneumonectomy, management of, 264
Endarterectomy, carotid sinus, 207
Endometrioma, ileal, 358

Esophageal stricture, pharmacological prevention of, in the cat, 465
Esophagitis, recognition and management of, 134

F

Fascia lata, and bone grafts, sternal reconstruction using, 180
Fasciitis, necrotizing, fatal, developing after tooth extraction, 525
Fistula
arteriovenous, between mammary and pulmonary arteries, 12
duodenocolic, duodenal ulcer as a cause of, 281
gastrocolic, benign, 342
intrahepatic, traumatic, of the hepatic artery and portal vein, 164

G

Gallbladder
diseases, liver injury in, 234
trauma to, 279
Gallstones, duodenal obstruction caused by, 688
Gangrene associated with venous tourniquets, 127
Gastrectomy, total, for carcinoma, 279
Gastroesophageal reflux, 67
Gastrostomies, Witzel tube, 355
Gastrostomy tube migration, 122
Graft(s)
bone, and fascia lata, sternal reconstruction using, 180
bypass, for artery occlusions, 219
of popliteal trifurcation, 453
skin, split thickness meshed, carrier for, 238
Grafting, aortocoronary bypass, 156
Gram-negative bacilli, postoperative infections from Bacteroides, 459

H

Hamartoma, hepatic, large solitary, 592
Hematoma
intramural, of the duodenum, in children, 402
spleen, subcapsular, use of angiography to diagnose, 587
Hemicorporectomy, 344
Hemobilia, 229
Hepatic ducts, carcinoma of the, 445
Hepatic flexure, carcinoma of, impaction of ingested undissolved tablets proximal to, 532
Hepatic hamartoma, large solitary, 592
Hernia(s)
hiatus, a composite operation for, 383
incarcerated ventral, colonic carcinoma in, 331
inguinal, multiple bilateral, 269
"wheelbarrow," preoperative pneumoperitoneum for repair of, 522
Herniography in cryptorchidism, 624
Hirschsprung's disease, 602
Hyperalimentation, complicated by central venous thrombosis, 162
Hyperamylasemia, postoperative, 111
Hyperparathyroidism, autonomous, total parathyroidectomy for treatment of renal osteodystrophy caused by, 509
Hypertension
portal, hemodynamic studies in, 40
renovascular, surgically corrected, secondary to traumatic renal artery stenosis, 642

I

Ileum, terminal, perforation in acquired diverticular disease of the, 514
Immunosuppression, 429
Incontinence and constipation, children with, physiologic responses of ano-rectal sphincters in, 95
In memoriam, 687
Intensive care unit, evolution of a, in Vietnam, 422
Intestinal obstruction
by phytobezoar, 216
volvulus of the cecum, 325

J

Jaundice, institutional, value of percutaneous transhepatic cholangiography, 673

K

Kidneys, canine, successful 24-hour preservation with intracellular electrolyte solution, 295

L

Leiomyoblastoma of the lesser sac, 692
Leiomyoma
giant, of the uterus, 391
of the uterus, massive gastrointestinal hemorrhage precipitated by, 528
Leiomyosarcoma
duodenal, 290
of spermatic cord, 352
Leukemia, in families with breast cancer, 199
Lipomas, infiltrating, 240
Liposarcoma of chest wall, 63
Liver
cirrhosis of the, duodenal varices with, 518
injury, in cholelithiasis, 234
Lung cancer, thoracotomy for, 410
Lung water, variations in, and pulmonary host defense mechanisms, 630
Lymph node dissection, retroperitoneal, in leiomyosarcoma of spermatic cord, 352

M

Methylprednisolone, lysosomal enzyme release in canine endotoxin shock treated with, 608

Monitoring, central venous pressure, 75

Myositis, crepitant, nonclostridial, management of, 105

N

Nakayama ring, end-to-end anastomosis of the common duct using, 170

Neck, penetrating injuries of the, management of, 148

O

Obstruction
in carcinoma of the rectum, 582
neurovascular, operative decompression of, 250

Ostomy patient, enterostomal therapy for, 124

Oxygenator support, extracorporeal membrane, a model for evaluating, 20

P

Pancreas, gastric heterotopic, 361

Pancreatic cysts, individualization in treatment of, 555

Pharmacological prevention of esophageal stricture, an experimental study in the cat, 465

Phytobezoar, 216

Pilonidal sinus, carcinoma of, 151

Pneumobilia, transient incompetence of sphincter of Oddi with, 406

Pneumoperitoneum, preoperative, for repair of "wheelbarrow" hernia, 522

Pregnancy and lactation, associated with carcinoma of the breast, 101

Presidential address
future shock and the surgeon, 425
surgical education and the community hospital, 537

Prostate, carcinoma of the, presenting as obstructive carcinoma of the rectum, 582

Pseudoaneurysms of the carotid artery, 257

Pseudopneumoperitoneum, 60

Pulmonary lesion, duodenal leiomyosarcoma presenting as a, 290

Pulmonary parenchymal changes, in thoracic trauma, 309

R

Rectal injuries, 456

Rectum, carcinoma of the, obstructive, carcinoma of the prostate presenting as, 582

Reflux, gastroesophageal, 67

Renal artery stenosis, 212

Renal osteodystrophy, total parathyroidism for treatment of, caused by autonomous hyperparathyroidism, 509

Renal preservation following severe trauma, 433

Renal transplantation, specific antilymphocyte antibody for use in, 429

Resection
ileal, distal, bile acid metabolism and diarrhea in, 305
rib, first, 250

Revascularization, myocardial, 549
direct, 156
of lower extremity, 453

S

Sarcoma
in families with breast cancer, 199

Scar formation, esophageal, 465

Sepsis, cardiac arrhythmias are an early sign of, 380

Serum amylase, elevation of, in surgical patients, 111

Shock, canine endotoxin, treated with methylprednisolone, lysosomal enzyme release in, 608

Spermatic cord, leiomyosarcoma of, 352

Sphincter of Oddi, transient incompetence of, with pneumobilia, 406

Sphincters, ano-rectal, physiological responses of, in children with incontinence and constipation, 95

Spleen, trauma to, 221

Splenectomy, 72
complications of, 221

Stapling devices, automatic, 475

Sternum, total resection and reconstruction of the, 180

Stomach, rupture of the, in the newborn, 619

Stricture, esophageal, pharmacological prevention of, in the cat, 465

Surgery
biliary, a constant bile duct anomaly encountered during, 438
bronchogenic carcinoma, selection of patients for, 1
hiatus hernia, for repair of, 383
parathyroidectomy, for treatment of renal osteodystrophy caused by autonomous hyperparathyroidism, 509
postoperative infections from Bacteroides, 459
of the carotid artery, pseudoaneurysms following, 257
splenectomy, 72
complications of, 221
thoracic, empyema following, 264
use of antibiotics in, 6

Surgical patients and drug abuse syndrome, 88

Surgical therapy
coronary artery, present status of, 549
for peptic ulcer disease, a review of, 470

Suture, surgical, evaluation of a new, 31

Syndrome
neoplastic disease, 199
"surgical" Chinese restaurant, 216
thoracic outlet, surgical management of, by first rib resection, 250

T

Thoracic outlet syndrome, 250
Thoracic surgery, empyema following, 264
Thoracic trauma, diagnosis of pulmonary parenchymal changes in, 309
Thoracotomy for lung cancer, 410
Thrombosis
and aneurysm of the brachial artery, from brachial arteriography, 115
central venous, a complication of catheterization and hyperalimentation, 162
complete, aneurysm of the brachial artery with, caused by a crutch, 389
Tooth extraction, fatal necrotizing fasciitis developing after, 525
Tourniquets, venous, gangrene associated with, 127
Transplantation
pancreatoduodenal, in dogs, 244
renal, 295
specific antilymphocyte antibody for use in, 429
Transplants, renal, functioning, prolonged cold ischemic times compatible with, 261
Trauma
abdominal, nonpenetrating, abdominal aortic dissection following, 177
cholecystitis following, 275
rectal injuries, 456
severe, renal preservation following, 433
thoracic, diagnosis of pulmonary parenchymal changes in, 309
to spleen, 221
Tube, Witzel, gastrostomies, 355
Tuberculosis, ileocecal, surgical treatment of, 706
Tumors, carotid body, 501

U

Ulcer(s)
duodenal, as a cause for duodenocolic fistula, 281
bleeding, in elderly patients, 174
peptic, a review of surgical therapy for, 470
stomach, acute "stress," 562
Ureter, branched rudimentary with blind ending, 419
Uterus
leiomyoma, giant of, 391
massive gastrointestinal hemorrhage precipitated by, 528

V

Vasoconstrictive agents, 448
Vein
portal, and hepatic artery, traumatic intrahepatic fistula of, 164
saphenous, a method of removal of, for vascular bypass, 219
Venous pressure, central, monitoring, 75
Vietnam, evolution of an intensive care unit in, 422
Volvulus of the cecum, 325

W

"Whither Thou goest?"—the dilemma down under, 481
Wound(s)
burn, therapy, 82
penetrating, of the neck, management of, 148
